

BJ Enclosures Ltd Bulletin board

Summary:

A year of change. Things are happening fast at BJ Enclosures so here's a quick summary of the main events. Following the take over of BJ Enclosures by Hazemeyer Hes S.L. we have been working on a general overhaul of the company and to orient it more towards providing the right products and service for you, our customers.

To spearhead the changes, **Mr. Alan Doyle** joined the team in August as the new MD. He is working closely with the head-office in Girona, Spain.

We have issued a new version of the product brochure and we are now planning on issuing another updated version during 2010. There is also a new price list so make sure you have the latest edition. Request a

copy from our office.

We plan to change our website during 2010 which will be a major task. This should be completed later in the year. We'll keep you updated.

PRODUCT FOCUS

This section of the bulletin provides information about products and applications. We'll look at different products in each bulletin. For this issue we've chosen our Minipol GRP enclosures, one of our most popular products.

MINIPOL system
