

# BJ Enclosures Ltd bulletin board

### Summary:

Will your panel be cool enough this summer? The efficiency of electrical and electronic panels is affected by temperature. We can offer you the solution to any temperature issues from just circulating the air to air-conditioning cooling units which can be installed on your enclosure or installation.

For circulation of air we can provide our Kryos range of filter fans.

Units available with EMC protection

### PRODUCT FOCUS

Temperature control starts with the thermostat which activates the required device from a filter fan for circulating the air to a heater or air-conditioning unit.

If more than a filter fan is required we can offer an extensive range of air-conditioning units.

- Wall mounted units
- Top mounted units
- Extra-flat wall mounted
- Extra-flat door mounted
- Explosion-Proof units
- Air to air heat exchanges
- Air to water heat exchangers

### Wall mounted

### Explosion-Proof
